Sixth Bank to Be Organized Here

Tentative plans looking to the organization of a new banking institution for Paris were formulated Saturday and according to those who are at the head of the movement, the institution will be established within a short time to take its place among the banks of the city and to make the sixth of like concern in operation in Paris.

At the head of the proposed concern are some of the most substantial business men of Paris and Bourbon county and it is safe prediction that a new banking house will be one of great profit.

Mr. John F. Barbee, a prominent farmer of the Millersburg precinct, has taken the initiative and while in Paris Saturday submitted the proposition to several business men who have considered the feasibility of the plan and have taken kindly to the suggestions of Mr. Barbee, with the result that fully half of the capital stock with which it is intended to incorporate has been subscribed and little trouble is expected in securing the remainder.

Connected with Mr. Barbee are Dr. D. S. Henry, Dr. Wm. Kenney, Dr. F. P. Campbell and several other substantial business men of Paris, together with several throughout the county who are interested in the success of the proposed concern. It is the plan to capitalize the new bank at \$50,000, but it has not been fully decided whether it will be State, National or Savings bank. This part of the organization will be left entirely to the directors when the institution is organized.

Those at the head of the movement have several under consideration for the official positions in the bank, but these matters will be taken up at later date to be fully decided upon by the Board of Directors which will be elected at a meeting of the stockholders at the earliest possible date following the incorporation of the concern.

Mr. Barbee was in Paris yesterday and in an interview said there was little possibility of the proposition not meeting with the success which the promoters have anticipated and is of the opinion that the sixth banking institution in this city should be a paying investment to the stockholders, owing to the abnormal conditions in money matters, and with the local banks now in operation in a flourishing condition there should be no reason for the new enterprise not being conducted at a profit.

While the rumor could not be verified it is said that Prof. E. M. Cosello was being favorably considered as the cashier for the new concern, and that his election to this position would follow immediately after its organization.

Goes With Q. & C.

Mr. Stokely Rion, who recently resigned his position with the Louisville & Nashville railroad as clerk in the local freight office, has accepted a position with the clerical department of the Q. & C. railroad, with headquarters at Danville, and left Wednesday to report for duty. Mr. Rion will be connected with the roadmaster's department.

Sleeper Causes One Death.

Notley Smith was killed and Thomas Calrk, Stuer Clark and George Mitchell were badly injured Saturday night when the hand car on which they were riding on the F. C. railroad ran into a drunken man who was asleep on a trestle near Frankfort, throwing the hand car and the men off the trestle down to the stony ground some twenty feet below. The men on the car were members of the Switzer section crew and they were coming to Frankfort to cash their last month's pay checks when the accident happened.
